

# ***Bleed Line Deodorizer*** ***"Stink-Be-Gone"***

**Description:** The IMAC Bleed Line Deodorizer is designed to reduce third party customer complaints at stations with natural gas bleed lines. The Bleed Line Deodorizer (scrubber) removes mercaptan odor / odorant from natural gas bleed and natural gas vents.

**Installation:** Remove inlet and outlet covers (red plugs). Pipe into place with outlet side facing away from rainfall.

**Applications:** Instrumentation vents or bleed systems that vent odorized natural gas; including intermittent or constant bleed lines. Examples include instrumentation panels, relief valves, control valves, regulators, and pneumatic controllers.

**Specifications:** Overall Height: 8 1/2" ± 1/4"  
Maximum Diameter: 3 1/2"  
Inlet Options: 1/4" • 1/2" • 3/4"  
Outlet: Open Vent  
Weight: 1.7 lbs  
Working Pressure: Atmospheric  
Material: Plastic Polymer Body  
*Packaged individually for easy transportation and storage*

**Media:** Activated Charcoal

\*Specifications subject to change without notice.
